SUMMARY REPORT
FT 950-1

JUNE 1962

FOR RELEASE
August 3, 1962

IMPORT TRADE BY COUNTRY

The Bureau of the Census, Department of Commerce, announced today that the decrease in United States general imports, unadjusted for seasonal variation, from \$1,453.5 million in May to \$1,350.2 million in June¹ reflected lower levels of imports from all areas except Canada. Changes in the dollar values of imports from all areas from May to June were as follows: Western Europe, from \$410.2 to \$355.7 million, Latin American Republics, from \$307.8 to \$267.9 million, Canada, from \$325.7 to \$339.1 million, and "all other countries", from \$409.8 to \$387.5 million.

From May to June, imports from O.E.C.D. countries in Europe fell from \$401.3 to \$347.9 million, while those from sterling area countries decreased from \$256.0 to \$228.8 million. Decreases were noted in imports from all continents except Australia and Oceania.

Imports from Europe dropped from \$416.3 million in May to \$362.8 million in June. This change was largely due to decreases in imports from individual countries of this continent as follows: United Kingdom, from \$93.7 to \$79.1 million; Turkey, from \$14.4 to \$3.0 million; West Germany, from \$80.7 to \$75.9 million; Belgium and Luxembourg, from

\$36.0 to \$31.5 million; and France from \$38.1 to \$34.7 million. The decrease in imports from Asia from \$265.9 to \$242.6 million was chiefly due to lower levels of imports from Federation of Malaya, from \$19.8 to \$13.0 million; Republic of the Philippines, from \$37.4 to \$31.2 million; India, from \$22.0 to \$16.1 million; Iran, from \$8.8 to \$3.3 million; and Hong Kong, from \$15.1 to \$11.3 million. However, imports from Kuwait rose from \$6.5 to \$13.8 million. Imports from North America fell from \$467.6 to \$449.0 million due mainly to a substantial decrease in imports from Mexico, from \$59.1 to \$38.8 million, and to lesser decreases in imports from Dominican Republic, from \$23.3 to \$14.5 million and Jamaica, from \$9.6 to \$6.4 million. These decreases were partly offset, however, by an increase in imports from Canada, from \$325.7 to \$339.1 million. Decreases in imports from Chile, from \$27.7 to \$19.6 million, and Brazil, from \$42.0 to \$35.1 million, were the chief factors in the decline in imports from South America, from \$207.2 to \$198.7 million. However, imports from Venezuela rose from \$79.1 to \$84.7 million. The decrease in imports from Africa, from \$67.8 to \$61.7 million, was due to a drop in imports from the Republic of South Africa, from \$22.7 to \$16.9 million.

Imports from Australia and Oceania rose from \$27.2 to \$34.2 million owing chiefly to increases in imports from New Zealand and Western Samoa, from \$10.7 to \$15.0 million and Australia, from \$16.2 to \$19.1 million.

¹On a seasonally-adjusted basis, total general imports were valued at \$1,345.8 million in June as compared to \$1,385.0 million in May. (See the June 1962 issue of Report No. FT 900-I.) Seasonally-adjusted data are not available by country of origin.

EXPLANATION OF STATISTICS

COVERAGE: Import statistics include merchandise imported by government agencies as well as by private importers, but exclude American goods returned by the United States armed forces for their own use. United States trade with Puerto Rico and United States possessions is not included in this report but the import trade of Puerto Rico with foreign countries is included as a part of the United States import trade. Merchandise shipped in transit through the United States between foreign countries is not included in import statistics. However, the statistics may include some merchandise (principally duty free) which is entered through United States Customs and subsequently exported in the same condition in which imported. In many cases, such merchandise differs from in transit merchandise only in the manner in which it is documented.

COUNTRY DEFINITION: Though the country which should be reported in the statistics as the country of origin is defined as the country where the merchandise was grown, mined or manufactured, the country actually shown in the statistics may in a number of cases represent some other country, such as the country of purchase, landing, or the country in which mixed lots of various origin are consolidated. It follows, therefore, that imports from such merchandising or transshipment countries are likely to be overstated and imports from other countries correspondingly understated.

VALUATION: Import values are, in general, based on market price or selling price, and are, in general, f.o.b. the exporting country. They exclude

United States import duties. None of the values have been adjusted for changes in price level.

RELIABILITY: The statistics presented in this report are based partly on sample data (i.e. formal entries valued under \$100 and all informal entries valued under \$250), and therefore are subject to sampling variation that may cause them to differ somewhat from the results which would have been obtained from processing all import entries. The probable variability due to sampling is either less than \$50,000 (the largest variation from rounding of figures) or less than 1 percent of the individual totals shown.

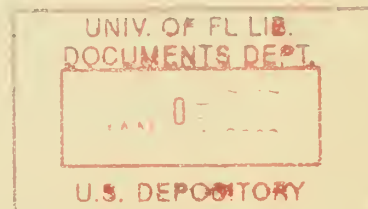

In addition to the effects of sampling variation, and the difficulties described above under COUNTRY DEFINITION, monthly import statistics are subject to some error from such sources as the carry-over of data from month to month in the compiling process and errors in reporting or processing. Although the effect of such errors on the rounded totals in this report is probably small, the possibility of inaccuracy should be taken into account, particularly in using figures of relatively small magnitude.

Further information regarding coverage, valuation, compilation procedures and precision of import data is contained in the foreword of Reports No. FT 110 and FT 120. For complete statement, see foreword in Foreign Commerce and Navigation of the United States.

For sale by the Bureau of the Census, Washington 25, D.C. Price 10¢ per copy. Annual subscription (FT 900, 930, 950, 970, 975, 985, and 986 combined) \$5.00.

UNITED STATES GENERAL IMPORTS, BY COUNTRY OF ORIGIN: JUNE 1962 AND SELECTED PERIODS

(In millions of dollars. N.e.c. indicates not elsewhere classified. General imports are a total of imports for immediate consumption plus entries into bonded warehouses. Figures for 1962 are as originally issued and have not been revised to include published corrections. Figures for 1961 include all revisions published with the December 1961 reports, or earlier, and the special corrections announced in the January 1962 issue of this report, but do not include other revisions published during 1962. Totals represent sum of unrounded figures, hence may vary slightly from sum of rounded amounts.)
